

NEW!

GEHWOL

Sensitive

A special care developed specifically for a dry and sensitive skin type. With daily use, the cream relieves the typical symptoms of sensitive skin such as itching or burning, reduces redness and regenerates the skin's natural microflora. With natural ingredients the cream prevents bacteria, fungi and allergens from spreading into deeper skin layers, offering effective prevention against infections. Aside from its sensitive formula, the cream richly nourishes the feet and legs with ceramides and almond oil. 75ml
