## Medika Dermal Needling

September 5-6 | 10am - 4pm

Medika Institute

\$1,750 + HST

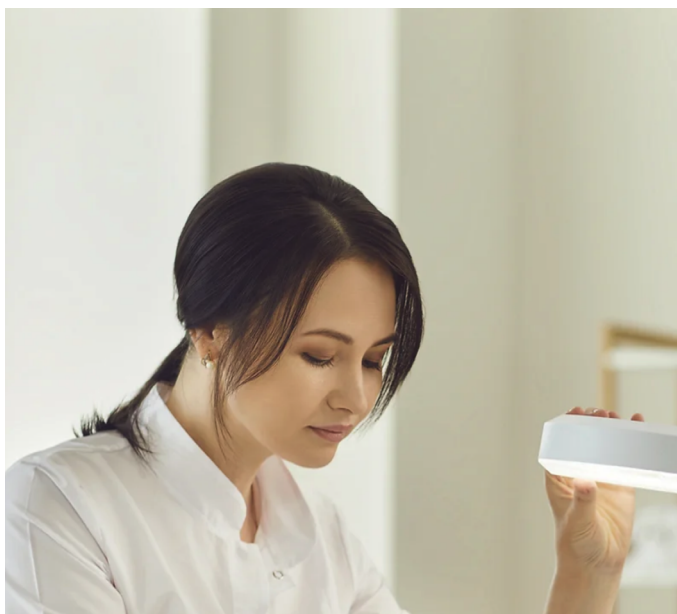

Our Advanced Dermal Needling Course focuses on advanced skin anatomy, wound healing, understanding in-depth knowledge about dermal rollers, dermal pens, stamping, and how to pre-condition the skin with safety precautions. The course includes a FREE blood pathogen course.

It involves the creation of tiny needle-like pricks into the skin. The technique creates multiple pricks using a specifically designed device with needles to encourage the regeneration of the skin via the wound-healing process. Skin needling is becoming a popular non-ablative skin rejuvenation treatment and is very successful at rejuvenating the surface of the skin. By including treatments into your practice, you are able to offer clients a larger range of skin rejuvenation treatments. This course is designed to give you the foundation skills and underpinning theoretical knowledge that is required to implement skin needling into your practice.

Full kit includes: Numbing cream, Biomedika serums, consumables, products, pre and post care, manuals with documentation, handbooks and practical with HC Innopen.

This course offers 2 CANS credits.

Email to register: [info@medikainstitute.com](mailto:info@medikainstitute.com)

## Medika Microdermarbrasion

September 8 | 10am - 4pm

Medika Institute

\$750 + HST

This advanced facial treatment, Microdermarbrasion provides the advanced skills and knowledge required to apply Microdermarbrasion techniques. Utilising specialised products and electrical equipment for a range of skin conditions. Students will also learn to provide before and after care advice for this treatment.

In this course, you will learn about the basic principles of skin science, the history of microdermarbrasion, application, operational safety and the effects on the skin. In this course, you will learn about the device application and its operational safety. You will practice with diamond tip microdermarbrasion and hydro-dermarbrasion. You will also learn about the facial products used in association with treatments and combining treatments and modalities in association with treatments to implement micro-dermarbrasion therapy into your clinic.

Full kit includes: Products, manuals with documentation, and handbooks.

This course offers 2 CANS credits\* You get to practice on 2 live models.

Email to register: [info@medikainstitute.com](mailto:info@medikainstitute.com)

## Introduction to Quannessence Skincare

September 18 | 9am - 12pm

Maritime Beauty Moncton Education Centre

\$100 + HST

Dip your toes in the Quannessence Professional Skincare brand through our introductory presentation covering its background, retail product knowledge, and product benefits. Quannessence's holistic approach ensures that the skin's natural beauty and harmony are enhanced while enhancing the skin's health. By utilizing specialty protocols and potent plant botanicals, peptides, and nutrients, Quannessence products paired with treatments target specific skin conditions on multiple layers of the skin for optimal corrective management.

This training course provides you with extensive product knowledge, theory, and sales tips. If you want to dive deeper into the brand and professional protocols, the second half of the day will dive into specialty protocols, a Quannessence-certified educator's facial demonstration, and hands-on training and experience. In order to qualify to take this portion of training, you need to become a verified Quannessence professional through the purchase of the Quannessence Pro Essential Kit. Contact us to learn more!

Register via email [bobbiejo@quannessence.ca](mailto:bobbiejo@quannessence.ca)  
or CALL (902) 888-2188 ext 2

Pre-requisites: Must be a Licensed  
Aesthetician/Cosmetologist  
Instructor: Bobbie Jo MacDonald

## Quannessence Pro Essential Certification Training

September 18 | 9am - 4pm

Maritime Beauty Moncton Education Centre

FREE (\$200 value) with purchase of Intro

Discover how to provide a tailored and luxurious facial experience for your clients with the Quannessence Skincare specialty products through the Pro Essential Skincare training. This comprehensive course covers all the essential facial treatment protocols using the full Quannessence premium skincare line, except for the Infinity and professional exfoliating peel products. By utilizing specialty protocols and potent plant botanicals, peptides, and nutrients, these treatments target specific skin conditions on multiple layers of the skin for optimal corrective management.

Not only will your clients be satisfied with the quality and effectiveness of these professional treatments, but they will also enjoy improved skin health, a thickened dermis, enhanced skin barrier function, reduced visible signs of aging and pigmentation, gentle exfoliation, heightened product penetration, and a radiant complexion. This training course provides extensive product knowledge, theory, sales tips, a Quannessence-certified educator's facial demonstration, and hands-on training and guidance.

Register via email [bobbiejo@quannessence.ca](mailto:bobbiejo@quannessence.ca)  
or CALL (902) 888-2188 ext 2

Pre-requisites: Purchase of Pro Essential Kit & Licensed  
Aesthetician/Cosmetologist  
Instructor: Bobbie Jo MacDonald

## Medika Skin Peel and Acid Rotation

September 20 | 10am - 4pm

Medika Institute

\$1,500 + HST

Our Advanced Skin Peel and Acid Rotation Course focuses on advanced skin anatomy, wound healing, understanding in-depth knowledge on skin and peel ingredients. The chemical peel cosmetic procedure, which is also highly popular in Canada is a safe and affordable method for the treatment of wrinkles, some skin disorders and overall skin rejuvenation.

The deeper the peel is, the more dramatic the clinical change or effect, but such deep chemical peels also mean that the patient needs more time for optimal skin healing and the risk of scarring becomes more eminent. The superficial peels only penetrate the upper skin area or the epidermis and are considered the safest, but results are not as dramatic as with medium to deep peels.

In your course you get to work with superficial, and medium depth peel due to our doctor affiliation program. Practical's are done on 2 live models and plastic mannequin heads with basic & compounding peels.

Full kit includes: Superficial and medium depth peels, consumables, products, pre and post care, manuals, documentation, and handbooks.

This course offers 2 CANS credits

Email to register: [info@medikainstitute.com](mailto:info@medikainstitute.com)

## Medika Institute Clinical Aesthetics Fundamentals Trio

September 24 | 9am - 12pm

Cosmetologists Unite Event - Moncton NB -

Delta Hotels Beausejour

Included with event ticket

Learn about:

- Advanced Skincare Techniques
- Aesthetic Treatments
- Skin Analysis & Assessment
- Safety & Best Practice
- Business & Client Management
- Stay Updated with Industry Trends

Register via email [generalinfo@canb.ca](mailto:generalinfo@canb.ca)

## QUANNESENCE

### Quannessence Gua Sha and Facial Cupping

September 25 | 9am - 12pm

Cosmetologists Unite Event - Moncton NB - Delta

Hotels Beausejour

Included with event ticket

Quannessence's newest advanced professional facial treatment incorporates their advanced skincare products, two clear quartz gua sha stones, and two sizes of glass facial cupping balls.

With little to no downtime, Facial Cupping and Gua Sha deliver results by increasing blood circulation, lymphatic drainage, increasing collagen synthesis, minimizing acne scarring and plumping the skin's surface.

In this class you will be taught the theory, background, and impacts of Gua Sha and Facial Cupping techniques and shown the Q protocol and results in a facial demonstration.

Dip your toes in the Quannessence Professional Skincare brand through our introductory presentation covering its background, retail product knowledge, and product benefits. Quannessence's holistic approach ensures that the skin's natural beauty and harmony are enhanced while enhancing the skin's health. By utilizing specialty protocols and potent plant botanicals, peptides, and nutrients, Quannessence products paired with treatments target specific skin conditions on multiple layers of the skin for optimal corrective management.

This training course provides you with extensive product knowledge, theory, and sales tips. If you want to dive deeper into the brand and professional protocols, the second half of the day will dive into specialty protocols, a Quannessence-certified educator's facial demonstration, and hands-on training and experience. In order to qualify to take this portion of training, you need to become a verified Quannessence professional through the purchase of the Quannessence Pro Essential Kit. Contact us to learn more!

or CALL (902) 888-2188 ext 2

Included: Quannessence Skin Renewal Product Kit (value \$120 retail)

Pre-requisites: Licensed Aesthetician/Cosmetologist

Instructor: Bobbie Jo MacDonald

## Quannessence Pro Essential Certification Training

November 20 | 9am - 4pm

Maritime Beauty Moncton Education Centre

**FREE** with purchase of an intro (\$200 value)

Discover how to provide a tailored and luxurious facial experience for your clients with the Quannessence Skincare specialty products through the Pro Essential Skincare training. This comprehensive course covers all the essential facial treatment protocols using the full Quannessence premium skincare line, except for the Infinity and professional exfoliating peel products. By utilizing specialty protocols and potent plant botanicals, peptides, and nutrients, these treatments target specific skin conditions on multiple layers of the skin for optimal corrective management.

Not only will your clients be satisfied with the quality and effectiveness of these professional treatments, but they will also enjoy improved skin health, a thickened dermis, enhanced skin barrier function, reduced visible signs of aging and pigmentation, gentle exfoliation, heightened product penetration, and a radiant complexion. This training course provides extensive product knowledge, theory, sales tips, a Quannessence-certified educator's facial demonstration, and hands-on training and guidance.

## Medika Jett Plasma Course

November 23-24 | 10am - 4pm

Medika Institute

**\$13,500 + HST**

JETT PLASMA LIFT MEDICAL is the first patented DIRECT CURRENT PLASMA discharge generator in the world, made in the Czech Republic (EU). Technology of treatment with JETT PLASMA is based on electric plasma - ionized gas.

Plasma is automatically generated by safe high voltage between the tip of the device and patient's skin. Patented direct current technology allows us to create very thin and stable discharge (0, 1m), by which can be treated even the area around eyes. This medical device is used to remove benign vascular lesions, skin lesions and to treat eye diseases.

## Medika Skin Peel & Acid Rotation

November 29-30 | 10am - 4pm

Medika Institute

\$1500 + HST

Our advanced Skin Peel and Acid Rotation Course focuses on advanced skin anatomy, wound healing, understanding in-depth knowledge on skin and peel ingredients. The chemical peel cosmetic procedure, which is also highly popular in Canada is a safe and affordable method for the treatment of wrinkles, some skin disorders and overall skin rejuvenation.

The deeper the peel is, the more dramatic the clinical change or effect, but such deep chemical peels also mean that the patient needs more time for optimal skin healing and the risk of scarring becomes more eminent. The superficial peels only penetrate the upper skin area or the epidermis and are considered the safest, but results are not as dramatic as with medium to deep peels.

In your course you get to work with superficial, and medium depth peel due to our doctor affiliation program. Practical's are done on 2 live models and plastic mannequin heads with basic & compounding peels.

Full kit includes: Superficial and medium depth peels, consumables, products, pre and post care, manuals, documentation, and handbooks.

This course offers 2 CANS credits.

## Medika Dermal Needling

December 7-8 | 10am - 4pm

Medika Institute

\$1,750 + HST

Our Advance Dermal Needling Course focuses on advanced skin anatomy, wound healing, understanding in-depth knowledge about dermal rollers, dermal pens, stamping, and how to pre-condition the skin with safety precautions. The course includes a FREE blood pathogen course.

It involves the creation of tiny needle-like pricks into the skin. The technique creates multiple pricks using a specifically designed device with needles to encourage the regeneration of the skin via the wound-healing process. Skin needling is becoming a popular non-ablative skin rejuvenation treatment and is very successful at rejuvenating the surface of the skin. By including treatments into your practice, you are able to offer clients a larger range of skin rejuvenation treatments. This course is designed to give you the foundation skills and underpinning theoretical knowledge that is required to implement skin needling into your practice.

Full kit includes: Numbing cream, Biomedika serums, consumables, products, pre and post care, manuals with documentation, and handbooks.

Practical with HC Innopen. This course offers 2 CANS credits.
